

## Automatically Fax Business Documents from SAP ERP

AventX Connector for SAP ERP is a proven third-party solution for faxing any document directly from SAP. With flexible integration methodology, AventX allows you to work with your existing fax technology now, and is designed to scale and adapt as your business evolves over time.

*"We installed AventX in just 2 hours and it's been a solid solution over the years. We've migrated all our faxing to AventX without any worries. Simply put, AventX works!"*

*Michael Buff, Network Systems Administrator  
Sloan Valve Company*

## Fax Directly from SAP with an Efficient and Scalable Solution

AventX Connector for SAP ERP provides the simple, but powerful tools businesses need to achieve measurable savings and enhanced productivity. Easy to implement and support, AventX is a reliable fax solution capable of sending any document through any fax technology. Faxing documents with AventX allows you to:

- ▶ **Choose the right faxing options for your business.** Use network, fax over IP or hosted fax solutions from a variety of fax providers. You can even use different providers for each of your locations or business units.
- ▶ **Monitor and manage document delivery status.** Track your documents through SAPoffice or a web-based interface and easily review, revise or re-send transmissions on the fly.
- ▶ **Scale your business with ease.** Send new documents, increase volumes or make changes to your fax infrastructure with confidence that AventX can handle anything.

### Key Product Features:

- ▶ Integrates with most major fax providers out-of-the-box
- ▶ Supports least cost routing (LCR)
- ▶ Records all inbound and outbound messages for auditing purposes
- ▶ Integrates with AventX Mail SC to provide advanced delivery tracking for emailed documents
